Skills

- ✓ Bootstrap, Material UI, Vuetify
- ✓ Styled Components, Sass
- ✓ AWS (EC2, S3, Route 53, ACM, Elastic Beanstalk)
- ✓ Digital Ocean (Droplets)
- ✓ Github, GitLab, Bitbucket, JIRA, Confluence
- ✓ Trello, Postman, VS Code

I'm a quick learner and I can easily adapt new knowledge that I studied. I'm a Web Developer with a strong foundation in backend programming and designing database technically. I used to motivate my teammates when we are having a pile tasks. "Deep Analyzing", is the first thing I do before coding.

Experience

Mosed Corporation

Full Stack Developer (June 1, 2020 – Present)

- Interim team lead developer.
- Developed competition sites.
- Maintaining and modified existing backend RESTFUL API/Microservices and CMS.
